DETAILED ACTION

Applicant's response of 10/18/06 has been considered with the following results.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 11-13, 16-18 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure, which is not enabling. The defining of the "main title" as presented in claim 1 is critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). Since independent claims 11 and 16 fail to recite this critical feature, the above rejection is made.

3. Additionally, The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

4. Claims 11-13, 16-18 are rejected under 35 U.S.C. 112, second paragraph, as failing to set forth the subject matter which applicant(s) regard as their invention. Evidence that claims 11 and 16 fail(s) to correspond in scope with that which applicant(s) regard as the invention can be found in the reply filed 10/18/06. In that paper, applicant has amended claim 1 to properly define the "main title".
5. The dependent claims fall with their respective parent claim.

Conclusion

6. Claims 1, 2, 5-7 are allowed over the art of record, since none of the cited prior art teaches or discloses defining the "main title" of the medium as defined in claim 1, and performing the appropriate comparison(s) (time wise) with respect to such main title attribute.

Art Unit: 2627

7. Claim 19 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kamoshita et al is cited as an automated ejection system predicated upon the detecting the end of playback as the critical event.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
